ART DECO & CONTEMPORARY CATALOGUE

Welcome

It is my pleasure to offer our Art Deco & Contemporary catalogue, including 240 different lamps, to those who are fans of these styles, to top or junior interior designers, to architects and to everyone who likes extraordinary interiors.

My personal calling is to make the world, public places and your home more interesting and exciting with our lights.

In the last 36 years we have manufactured several thousand special lamps from tiny ones to grand ones. For me, a perfectly satisfied customer and a perfectly crafted lamp is essential, this is why we manufacture our 700 special lamps in different styles just like pieces of jewellery.

Yours sincerely,

Csaba Károlyi
Director

VERSAILLES

As little brass as possible, as many crystal tubes as possible: this is Versailles. All lamps feature multiple tiers, resulting in beautiful light reflections filling a grand space. It cannot get more voluminous than this!

HAMBURG

The stair-shaped form on either or both ends of the lights is the distinguishing décor of this modern collection. Clear tubes diffuse the light making lovely light refractions on its surface. The collection is a perfect choice for interiors of average size with standard ceiling heights with a minimalist design approach where the angular form is the basis.

MONTRÉAL

This little collection consists solely of grand sized chandeliers. They are represented in oval and round forms and two sizes. Just as in the Petitot collection the glass plates are frosted and the crystal tubes on the sides are clear. This luxurious line was inspired by our popular Petitot collection and as complementary products we suggest the matching Orléans wall lights from page 77.

PETITOT

This collection is our largest one, showcasing finest French art deco be it a chandelier, wall light, pendant, ceiling fitting, table lamp or floor light.
This is where almost unadorned brass, frosted glass plate and fixed tubes made of crystal meet, resulting in lavish and impressive lighting. The collection is inspired by French designer Petitot.

HOFFMANN

This collection drew inspiration from the acclaimed Austrian architect and designer Josef Hoffmann. Straight lines and cubic shapes are the trademarks of our Hoffmann collection. Our smaller chandeliers boast streamlined forms and cylindrical glass shades, while the bigger ones, such as Hoffmann Chandelier III., consist of a large brass body and countless crystal tubes. All are accompanied with matching wall lights, table lamps and floor lamps, thus multiplying the marvellous light reflections of the chandeliers.

Although based on art deco patterns the Nizza chandeliers and its pendants resemble futuristic aerial vessels. They are accompanied by three perfectly matching wall lights. Aficionados of art deco will love this combination of angular and curvy forms.

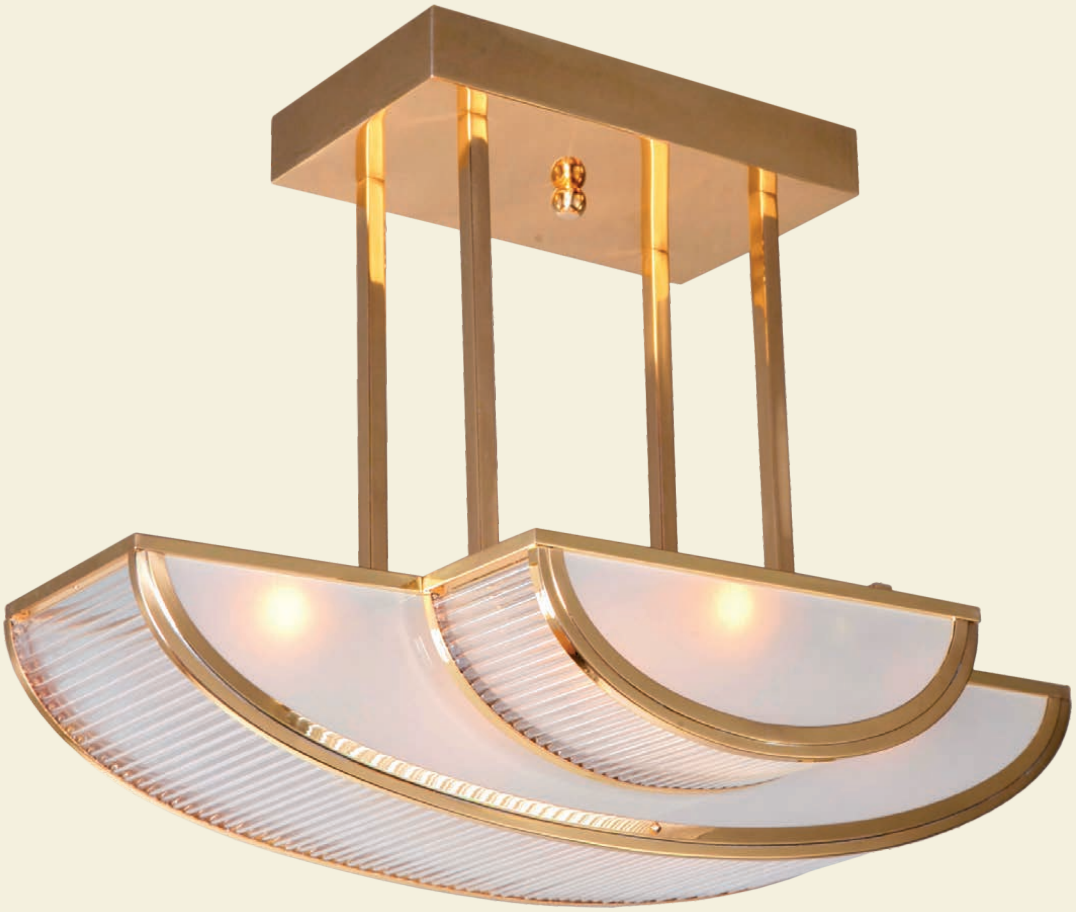
ORLÉANS

Lot of glass tubes and little brass: this is Orléans. There is no decor, just streamlines and strict forms. The collection consists of 5 wall lights, a chandelier and pendants which are particularly feminine and will look best in the most minimalistic environment with a metallic touch.



ORLÉANS CHANDELIER I.

CASABLANCA

The opulent Casablanca chandeliers were designed for truly magnificent interiors, be it a concert hall, a place of worship or an elegant showroom. Should you be looking for an exquisite and minimally decorated lamp with multiple light sources this collection will be a perfect solution. It comes in three sizes from 1-2,5 meters with multiple tiers.
