NEWPORT

hookerfurniture.com

Elements

Embracing the luxury and natural beauty of coastal California, **NEWPORT** is characterized by its modern and opulent styling that is grounded by an unexpected mix of organic elements and its lighter-tone finish and includes pieces for bedroom, dining room and living room.

Crafted of highly figured black walnut, key pieces in the collection are featured in a soft, French Vanilla finish which is layered with organic elements including stone, bamboo and raffia evoking a casual, yet sophisticated feeling.

Polished stainless steel accents and an assortment of eye-catching hardware including ring pulls and over scaled open circular pulls offer opulent styling and deliver just a touch of glam, elevating the casual look to conjure a hip, California aesthetic.

Sophisticated in its styling, Newport offers more than just a coastal look. While the lighter finish and organic elements evoke a casual feeling, the eclectic range of luxurious materials, shapes and textures provide an updated and elegant character, resulting in a style that will appeal to consumers in all regions of the country.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in Newport feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Dining Room

Hooker Furniture strives to make the world a better place to live through leadership in all of our business practices. To learn more about our commitment to environmental stewardship, visit: www.hookerfurniture.com/environmentalstewardship.inc

8/2019

Headquartered in Martinsville, Va., Hooker Furniture employs approximately 600 people at our Virginia and North Carolina locations. Our high-fashion custom upholstery by Sam Moore Furniture is manufactured in Bedford, Va., and our upscale leather upholstery line is manufactured in Hickory, N.C. by Bradington-Young. Our designers travel the world to find artisans and craftsmen who uniquely possess the necessary skills to meet our high quality standards.

We strive to provide an accurate representation of our finishes but due to changes in lighting and printing limitations, some color variation is possible. To determine the exact color of a finish, we suggest you visit a Hooker Furniture Retailer to see the actual product.
