SI DIVENTA GRANDI GRAZIE AI SOGNI

MARCHETTI è un'azienda che da più di quarant'anni fa dello stile la sua profonda ragion d'essere, fondendolo con vigore e maestria allo spirito manifatturiero che da sempre contraddistingue la famiglia e la sua storia. Una storia italiana raccontata da chi crede fermamente nel Made in Italy come valore imprescindibile della qualità e dell'eleganza. Ed è per questo che MARCHETTI si rivolge ai mercati europei e mondiali presentandosi con progetti inediti, pensati per essere facilmente customizzati su richiesta del cliente, ma che non tradiscono l'antica maestria artigiana e la cura dei dettagli.

You grow up thanks to your dreams

For over forty years MARCHETTI has been making of style its reason for being. MARCHETTI has been skilfully merging style with the entrepreneurial spirit that has always marked the family and its story. An Italian story told by those who firmly believe in Made in Italy as a key value of quality and elegance. That's the reason why MARCHETTI calls on European and world markets arising with new projects, designed to be easily customized on request, without betraying the ancient craftsmanship and the attention to details.

MADE IN ITALY

LA QUOTIDIANITÀ SENZA TEMPO

Il Gruppo FALA è stato fondato nel 1972 dal Presidente Sergio Marchetti. Nel corso di una lunga e veramente fortunata attività in tutti i mercati mondiali, ha sviluppato diversi brand, ciascuno distinto dall'altro in termini organizzativi, stile dei prodotti, ricerca e sviluppo, ma tutti integrati nello scopo di completare un'offerta di servizi di illuminazione decorativa ed architettonica. Il brand specializzato nella produzione di corpi illuminanti custom di ogni forma e dimensione, ma specialmente nelle dimensioni eccezionali per progetti Contract di prestigio, senza preclusione alcuna: metallo, vetro artistico, cristallo di vario genere, materiali plastici e manufatti in tessuto. Fare contract significa poter fare sperimentazioni su grande scala, tenere in considerazione tutti gli aspetti del progetto: dal primo abbozzo dell'idea, fino alla manutenzione del prodotto finito, ma significa anche mettersi alla prova per trovare soluzioni che possano poi essere trasferite dai macro-ambienti alle case, dalle realtà aziendali agli spazi più intimi. Da sempre presente nel mercato del Medio-Estremo Oriente, nel corso degli ultimi 20 anni l'azienda ha aperto e sviluppato con successo mercati esteri nel resto del mondo, sempre rispondendo alle specifiche esigenze di certificazione e conformità dei prodotti. Con la sua esperienza e grazie alle sue caratteristiche l'azienda è garanzia di qualità, velocità, efficienza, discrezione e precisione.

Timeless daily life

The Fala Group companies were started by its current President Sergio Marchetti in 1972. During its long and lucky operation in many world markets it has developed a number of brands each one different from the others in the group for its individual organization, style of products, research and development, but are integrated in offering a complete selection of services and products destined for a decorative and architectural lighting market. The brand specialized in the production of custom lighting bodies with varied shapes and dimensions, and in particular in large dimensions for prestigious contract products with no preclusion as regarding to products used, be it metal, artistic glass and other types of glass and crystal, plastic materials and hand made textiles. To produce items destined for the contract market, means to experiment on a wide scale, taking into consideration all the aspects of the project one is working on from the beginning of its idea to the finished product, however it also means to test oneself in order to find solutions that can be applied both in large environments and in the home, in businesses as well as in intimate spaces. We have been present on the Middle and Far East markets since we started and in the last 20 years company have been able to develop other markets worldwide always being careful to fulfill the requests of certification and conformity requested for specific products. With its experience and thank to its peculiarities the company is able to guarantee quality, speed, efficiency discretion and precision.

DESIGN E ALTO ARTIGIANATO

Realizziamo prodotti interamente fatti a mano, dalle forme pulite ed elaborate. Il processo di lavorazione si basa sull'utilizzo di tutte le tecnologie più avanzate oggi a disposizione. Grazie ad un impianto industriale moderno ed efficiente, comprendente un reparto finitura e verniciatura con polveri epossidiche cotte a forno a 180° C, escono dall'azienda creazioni con effetti cromatici tecnicamente all'avanguardia. Un particolare importante: la finitura galvanica con oro zecchino 24k e nichel, viene fatta anche su acciaio inox 316 per ambienti marini.

Design and high craftsmanship

We manufacture products made entirely by hand, with clean and elaborate lines. The production process is based on the use of the most advanced technologies available today. We are equipped with an efficient and modern industrial plant with a high quality finishing and painting department, allowing us to create products with splendid chromatic effects. Please note that the pure 24K gold and nichel galvanized finishes are also applied to 316 stainless steel for marine environments.

LA LUCE DEL MADE IN ITALY

Marchetti è un'azienda che da più di quarant'anni fa dello stile la sua profonda ragion d'essere, fondendolo con vigore e maestria allo spirito manifatturiero che da sempre contraddistingue la famiglia e la sua storia. Una storia italiana raccontata da chi crede fermamente nel Made in Italy come valore imprescindibile della qualità e dell'eleganza. The light of made in italy

For more than forty years Marchetti has created his own style, blending it with the vigour and mastery of the entrepreneurial spirit that has always distinguished the family and its story: an Italian story firmly based on the indispensable quality and elegance of Made in Italy. Marchetti offers the European and world markets original projects, designed to be easily customized to taste, but do not betray time-honoured craftsmanship and attention to detail.

Le strutture in acciaio si rincorrono creando forme geometriche che catturano la delicata essenza delle sfere di vetro soffiato lavorato a mano, che si illuminano nelle forme più grandi e creano effetti e riflessi di luce nelle forme più piccole. Le parti in acciaio sono finite in oro 24kar galvanico lucido o nichel galvanico lucido. Gli attacchi lampada sono LED.

The steel structures chase creating geometric shapes that capture the delicate essence of blown glass spheres worked by hand, which are lighted in larger forms and create effects of light and reflections into smaller forms. The steel parts are finished in gold 24kar galvanic or galvanic nichel. The lampholder are LED.

La forma e il nome danno l'idea del cocktail e dei cubetti di ghiaccio che lo rendono fresco e gustoso. In realtà GLACE è brioso come un cocktail ed elegante nella sua composizione di vetro di murano soffiato e lavorato mano, al cui interno abili maestri hanno inserito minuscole bollicine che si distribuiscono, creando l'effetto della spuma dell'onda del mare o della scia magica della Via Lattea.

The shape and name give the idea of the cocktail and ice cubes that make it fresh and tasty. In reality GLACE is as lively as a cocktail and elegant in its composition of blown and hand-worked Murano glass, inside which skilled masters have inserted tiny bubbles that are distributed, creating the effect of the foam of the sea wave or the magical wake of the Milky Way.

Anelli di acciaio forgiato con dimensioni diverse e realizzabili su misura come un abito sartoriale di alta moda. La fantasia del progettista può contare sulle dimensioni e su cristalli di ineguagliabile bellezza. Sono cristalli WATER CRISTAL che illuminati dalla luce indiretta dei led assumono una luce ed un effetto unico. WATER CRYSTAL nasce dalla sperimentazione della Marchetti Lab. Un processo chimico che imprigiona l'acqua nel cristallo, che soffiata con azoto la cristallizza creando dei meravigliosi effetti. Le finiture sono molteplici, foglia oro, foglia argento, foglia rame, tutta lavorata a mano, inoltre oro galvanico satinato spazzolato. Illuminazione led.

Forged steel rings with different sizes and made to measure tailoring as a high fashion dress . The designer imagination can count on the size of crystals of exceptional beauty. It's WATER CRISTAL that illuminated by indirect light of the LEDs create an unique effect.WATER CRYSTAL effect arises from the experimentation of Marchetti Lab.A special chemical process that traps the water into the crystal, that blown with nitrogen crystallizes, creating marvelous effects. The finishes are gold leaf, silver leaf, copper leaf, all made by hand, also galvanic brushed satin gold. LED Lighting.

La leggerezza del tubo di vetro soffiato, si unisce alla forza di una struttura in acciaio piegata dalla mano dell'uomo e lavorata per assumere forme e dimensioni che assecondano le fantasie creative di chi ama creare. Le curve, i tratti lineari. Le forme ovali o circolari, i semicerchi, possono essere posizionati a varie altezze, creando strutture di grande effetto. Le finiture sono molteplici ed esclusivamente realizzate internamente. L'illuminazione è con speciale strip led all'interno della struttura con chip orientati a 90° così da illuminare il vetro in modo omogeneo.

The lightness of blown glass tube, joins the strength of a steel structure bent by the hand of man and machined to assume shapes and sizes that follow the creative fantasies of those who love to create. The curves, the linear stretches. The oval or circular shapes, semi circles, can be positioned at various heights, creating large effect structures. The finishes are varied and exclusively internally generated. The lighting is with Special LED strip inside the structure with chips facing 90° to create a uniform light for all glass tubes.

Cristallo sfaccettato / Faced Crystal

Una collezione di acqua cristallina. Niagara rievoca un vortice di acqua cristallina e nelle sue eleganti linee si veste di cristallo di boemia dalle forme semplici e raffinatissimo nella lavorazione, con molteplici sfaccettature che ne esaltano l'effetto arcobaleno. Niagara con le preziose finiture del metallo e la rapsodia del cristallo di boemia è la sintesi perfetta di trasparenza e ricercatezza.

A crystalline water collection. Niagara reveals a vortex of crystalline water and in its elegant lines it dresses of crystal of bohemia from simple forms and very refined in processing, with multiple facets that enhance the rainbow effect. Niagara with the precious metal finishes and the rhapsody of the bohemian crystal is the perfect synthesis of transparencies and refinement.

La purezza del cristallo incastonato in fasce di acciaio a specchio, crea anelli di varie dimensioni illuminati internamente. La struttura riflette una luce bellissima e policroma poiché i cristalli sono incastonati uno accanto all'altro, e l'acciaio a specchio ne aumenta il riflesso.

Gli attacchi lampade sono LED.

The purity of crystal embedded in mirror steel bands, creates rings of various sizes internally lighted. The structure reflects a beautiful and polychrome light because the crystals are embedded into the structure, and the steel mirror increases the reflection. The lampholder is LED.

LAMPADE PER HOTEL E AMBIENTI RESIDENZIALI

Collezioni di lampade eleganti e ricercate, create per ambienti votati all'accoglienza di una clientela che ama la raffinatezza di oggetti esclusivi e mai eccessivi. Ogni oggetto ha una sua particolarità che ne garantisce l'unicità del design e della lavorazione. Onice e vetro di Murano legati a materiali antichi e sempre ben accetti come il ferro forgiato e l'ottone, sapientemente lavorati e battuti a mano dalle nostre maestranze. Le nostre lampade sono il meglio della tradizione artigiana che si sposa perfettamente con le moderne tecnologie di finitura dei metalli realizzata internamente con verniciature epossidiche a forno e con impianto di galvanica interna accurata in ogni fase del processo.

Tutto Made in Italy.

Lamps for hotels and residential environments

Collections of elegant and luxury lamps, created for welcoming environments of a client that loves the refinement of exclusive and never excessive objects. Each object has its own peculiarity which guarantees the uniqueness of the design and the workmanship. Onyx and Murano glass linked to ancient materials and always well accepted as forged iron and brass, expertly worked and beaten by hand by our workers. Our lamps are the best of the artisan tradition that fits perfectly with the modern technologies of metal finishing made internally with epoxy varnishes and with an accurate internal electroplating system at every stage of the process.
All made in Italy.

SI DIVENTA GRANDI GRAZIE AI SOGNI

MARCHETTI è un'azienda che da più di quarant'anni fa dello stile la sua profonda ragion d'essere, fondendolo con vigore e maestria allo spirito manifatturiero che da sempre contraddistingue la famiglia e la sua storia. Una storia italiana raccontata da chi crede fermamente nel Made in Italy come valore imprescindibile della qualità e dell'eleganza. Ed è per questo che MARCHETTI si rivolge ai mercati europei e mondiali presentandosi con progetti inediti, pensati per essere facilmente customizzati su richiesta del cliente, ma che non tradiscono l'antica maestria artigiana e la cura dei dettagli.

You grow up thanks to your dreams

For over forty years MARCHETTI has been making of style its reason for being. MARCHETTI has been skilfully merging style with the entrepreneurial spirit that has always marked the family and its story. An Italian story told by those who firmly believe in Made in Italy as a key value of quality and elegance. That's the reason why MARCHETTI calls on European and world markets arising with new projects, designed to be easily customized on request, without betraying the ancient craftsmanship and the attention to details.

MADE IN ITALY

SOLO CHI SOGNA PUÒ VOLARE

Cibarsi del nettare dei fiori, disegnare simbolici infiniti e battere le ali così velocemente da restare quasi immobili a mezz'aria ad assaporare la luce. Il colibrì incarna l'idea di libertà, l'energia, il perseguire con tenacia, incurante delle proprie dimensioni, sogni, idee e cose ritenute dai più impossibili. Il colibrì simboleggia la gioia di vivere e la capacità di imparare dalle proprie esperienze. E come il piccolo volatile anche MARCHETTI è in continua evoluzione: sente il desiderio di muoversi, innovare e pensare al futuro per conservare al meglio le sue energie vitali. L'immaginazione e la passione sono le ali che fanno librare ancora oggi MARCHETTI in alto... perché solo chi crede nel suo sogno può volare.

Only the dreamer can fly

To feed on the nectar of flowers, to draw a symbolic infinity and to flicker one's wings so fast that it is possible to stand in the air, almost motionless, enjoying the light. The hummingbird embodies the idea of freedom, energy, tenaciously pursue, regardless of its size, dreams, ideas and things deemed impossible by most. The hummingbird symbolizes the joy of living and the skill to learn from one's experiences. And just like the little bird does, also MARCHETTI is constantly changing: we feel the desire to move on, to innovate and to think about the future to better preserve our vital energies. Imagination and passion are the wings that make MARCHETTI fly high... Because only those who believe in their dream can really fly.

MATERICA

Materica è una collezione di elementi scultorei da cui emerge con decisione la passione per la materia prima, il cemento. Il cemento declinato in un raffinato gioco di volumi e colori. Una vera e propria sfida tecnica, una scelta progettuale estrema e innovativa per regalare un istante di inaspettata magia e leggerezza. La collezione è composta da sospensioni alimentate con Led Line.

Materica is a collection of sculptural elements from which the passion for the raw material, cement, emerges decisively. Cement declined in a refined play of volumes and colors. A real technical challenge, an extreme and innovative design choice to give an instant of unexpected magic and lightness. The collection consists of suspensions powered by Led Line.

Tubo tagliato a laser e vetro satinato/Laser cut tube and frosted glass

PYTON REV S150: 1xE14 LED

Morbido e armonioso nelle movenze ma forte ed elegante nella struttura tubolare sapientemente lavorata con un processo laser unico nel suo genere, che crea un movimento sinuoso arricchito con degli inserti in pelle nera...che diffonde luce con una sfera bianco latte satinata.
Sospensione realizzata con un tubo metallico intagliato a laser che ne permette un movimento sinuoso. Diffusore in vetro satinato bianco latte. Illuminazione e14 led.

Soft and harmonious in the movements, but strong and elegant in the metal structure wisely worked with a unique laser process...this sinuous movement enriched with black leather bracelet is illuminated with a satin milky white sphere. Suspension made with a laser-cut metal tube that allows for sinuous movement. Milk white satin glass diffuser. E14 led lighting.
