

Catellani & Smith

2020-2021

Catellani & Smith

Enzo Catellani

deus ex machina

Logan Smith

Ho iniziato a costruire le mie lampade senza sapere se mai le avrei vendute. Immediatamente il successo, improvviso, inaspettato. Non sapevo nemmeno come fare a produrle in serie. Così è nata la Catellani & Smith. Quasi per caso. Logan Smith, quello che nei primi anni abbiamo fatto credere fosse un architetto londinese, in realtà era il nome del mio cavallo di quegli anni. Un modo per non accentrare tutto su di me, per darmi una credibilità, ma anche per iniziare un percorso, mai interrotto, segnato da una continua e spontanea ironia. Mi piace sdrammatizzare le mie creazioni, infine altro non sono che lampade. Poi però dedico a loro un impegno totale, di ricerca, di attenzione, di espressione. Pretendo che tutti quelli che lavorano con me facciano altrettanto. E' una questione di rispetto nei riguardi di chi ha creduto in noi, di chi si lascia emozionare dai nostri prodotti. Non sono un designer, non sono un artista. Non voglio esserlo. Sono uno che fa quello che gli piace. Poi piace anche ad altri. Le cose dal 1989 sono cambiate, l'azienda è cresciuta, la produzione aumentata, la ricerca ha cavalcato la tecnologia. Oggi siamo in grado di dare di più. Tutto è cambiato perché nulla cambiasse. Le nostre lampade sono costruite ancora con le mani, in spazi di lavoro bellissimi. Sono fatte tutte in Italia, sul Serio... Non c'è frenesia, ad ogni lampada viene dedicato il tempo che serve per fare una lampada fatta bene. Perché "bello" è soggettivo, ma "perfetto" no. Ho cresciuto le persone che lavorano con me e loro mi hanno aiutato a crescere. Oggi ci stiamo preparando a una nuova fase. Nuovi Smith sono pronti per alzare nuova polvere.

*Enzo Catellani*

CFO

I began making my lamps without knowing whether I would ever sell them. Success came suddenly, unexpectedly, without warning. I didn't even know how to make them on a production line. This is how Catellani & Smith was born. Almost by chance. Logan Smith - who we encouraged people to believe was a London architect - was actually the name of the horse I had at the time. It was a way of not concentrating everything on me, giving myself credibility but also beginning an unbroken journey marked out by ongoing and spontaneous irony. I like to play down my creations. At the end of the day they are simply lamps. But I put all of myself into them, all my research, attention, expression. And I expect everyone working with me to do the same. It is a question of respect for those who believe in us and are moved by our products. I'm not a designer. I'm not an artist. And I don't want to be either. I'm a person who loves what he does. Then other people like it too. Since 1989 things have changed, the firm has grown, production has increased, research on the back of technology. Now we can do much more. Everything changed so that nothing would change. Our lamps are still made by hand today, in attractive workspaces. They are all made in Italy, on the banks of the Serio River... There's no stress. Every lamp is given all the time it needs to be well made. Because 'beautiful' is subjective, 'perfect' isn't. I have grown the people who work with me and they have helped me grow. Today we're getting ready for a new phase. New Smiths are ready to make waves.

*Enzo Catellani*

Ich habe angefangen, meine Leuchten zu konstruieren, ohne zu wissen, ob ich sie je verkauft hätte. Der Erfolg stellte sich sofort ein, ganz plötzlich und unerwartet. Ich wusste nicht einmal, wie ich sie in Serie herstellen sollte. Das ist der Beginn von Catellani & Smith. Quasi aus Zufall. In den ersten Jahren haben wir den Leuten vorgegaukelt, dass es sich bei Logan Smith um einen Londoner Architekten handelte, aber in Wirklichkeit war dies der Name meines damaligen Pferdes. Einfach, damit nicht alles auf mich konzentriert war, um mir Glaubwürdigkeit zu verschaffen, aber auch als Beginn eines Werdeganges, meines Werdeganges der nie unterbrochen wurde und sich durch eine andauernde und spontane Ironie auszeichnet. Ich spiele die Bedeutung meiner Kreationen gerne herunter; im Grunde handelt es sich nur um Lampen. Aber ihnen gilt mein ganzes Engagement, ihnen widme ich mein Forschen, meine Aufmerksamkeit und mein Schaffen. Und ich verlange von allen, die mit mir arbeiten, dass sie das Gleiche tun. Es handelt sich hier um eine Art Respekt gegenüber all jenen, die an uns geglaubt haben, die sich von unseren Produkten begeistern lassen. Ich bin kein Designer, ich bin auch kein Künstler und ich will es auch nicht sein. Ich bin jemand, der das macht, was ihm gefällt. Und das gefällt dann auch den anderen. Die Dinge haben sich seit 1989 verändert, der Betrieb ist gewachsen, die Produktion nahm zu, die Forschung hat die Technologie miteinbezogen. Heute sind wir in der Lage, mehr zu geben. Alles hat sich verändert und doch bleibt vieles gleich. Unsere Leuchten werden auch heute noch von Hand hergestellt, an einem wunderschönen Arbeitsplatz. Sie werden alle in Italien hergestellt, am Fluss Serio... Es gibt keine Hektik, jeder Leuchte wird genau die Zeit gewidmet, die man braucht, um eine Leuchte von exzellenter Manufaktur herzustellen. Denn „schön“ ist subjektiv, nicht aber das Wort „perfekt“. Ich habe die Leute, die mit mir arbeiten, „großgezogen“, und sie haben mir geholfen zu wachsen. Heute bereiten wir uns auf einen neuen Zeitabschnitt vor. Neue Smiths stehen schon bereit, um neuen Staub aufzuwirbeln.

J'ai commencé à construire mes lampes sans savoir si je les aurais jamais vendues. Ce fut tout de suite le succès, soudain, inattendu. Je ne savais même pas comment faire pour les produire en série. C'est ainsi qu'est né Catellani & Smith. Presque par hasard. Logan Smith, celui que, au cours des premières années, nous avons fait passer pour un architecte londonien, était en fait le nom de mon cheval à cette époque-là. Une manière de ne pas tout focaliser sur moi, pour me donner une crédibilité mais aussi pour ouvrir un parcours, jamais interrompu, marqué d'une ironie constante et spontanée. J'aime dédramatiser mes créations, ...en fin de compte ce n'est rien d'autre que des lampes. Mais ensuite, je leur dédie un engagement total de recherche, d'attention, d'expression. Je demande que tous ceux qui travaillent avec moi fassent de même. C'est une question de respect à l'égard de qui a cru en nous, de qui est touché par nos produits. Je ne suis pas un designer, je ne suis pas un artiste. Et je ne désire pas l'être. Je suis quelqu'un qui fait ce qui lui plaît. Et qui, ensuite, plaît aussi aux autres. Depuis 1989 les choses ont bien changé, l'entreprise a grandi, la production a augmenté, la recherche s'est développée en s'appuyant sur la technologie de pointe. Aujourd'hui nous sommes en mesure de faire mieux. Tout a changé, pour que rien ne change. Nos lampes sont encore construites à la main, dans de très beaux espaces de travail. Elles sont toutes faites en Italie, au bord du fleuve Serio... Sans frénésie ; on consacre à chaque lampe le temps nécessaire pour pouvoir faire une lampe bien faite. Car la « beauté » est subjective mais la « perfection » ne l'est pas. J'ai élevé les personnes qui travaillent avec moi, et eux-mêmes m'ont aidé à grandir. Nous nous préparons maintenant pour une nouvelle phase. De nouveaux Smith sont prêts à soulever de nouveaux tourbillons de poussière.

"Trenta" è la lampada,  
in edizione limitata e numerata,  
che celebra la lampadina e i primi trenta "anni-luce"  
della Catellani & Smith

Trenta is a lamp,  
made in a numbered and limited edition,  
which celebrates the light bulb and the first thirty 'light-years'  
of Catellani & Smith

[catellanismith.com/trenta](http://catellanismith.com/trenta)

## Trenta

Limited edition battery lamp

Materials and colours: protected iron structure,  
borosilicate glass bulb, untreated brass and brass coloured details

Light source: 1x LED with on/off switch

Petits Bijoux

## 28 Petits Bijoux

Pendant lamp  
Materials and colours:  
untreated brass rings, transparent covers  
Light source: 28x 24V interchangeable LED

Ø 75 cm ca.

"The Grey Horse, Philips Wouwerman, c.1646" and "Warships in a Heavy Storm, Ludolf Bakhuysen, c.1695" - with the kind permission of Rijksmuseum, Amsterdam

### 56 Petits Bijoux

Pendant lamp  
Materials and colours:  
untreated brass rings, transparent covers  
Light source: 56x 24V interchangeable LED

Ø 120 cm ca.

Petites Lentilles

## 22 Petites Lentilles

Pendant lamp  
Materials and colours: untreated brass oval,  
transparent lenses with brass holder  
Light source: 22x 24V interchangeable LED,  
low voltage LED strip (directed upwards)

120x60 cm ca.

Lederam

## Lederam Manta S1

Pendant lamp

Materials: aluminium shade and disc, metal rod

Colours: black/gold, black/copper, white/gold, white

Light source: 1x mains voltage LED module

30 cm

60 cm

## Lederam Manta S2

Pendant lamp  
 Materials: fiberglass shade, aluminium discs, metal rods  
 Colours: white, white/gold, black/gold, black/copper  
 Light source: 2x mains voltage LED module

53 cm

100 cm

### Lederam Manta CWS1

Wall or ceiling lamp

Materials: aluminium shade and disc, metal rod

Colours: white, white/gold, black/gold, black/copper

Light source: 1x mains voltage LED module

### Lederam C150 / C180

Ceiling lamp

Materials: aluminium shade and disc

Ø 17 cm (C150) or Ø 25 cm (C180), metal rod

Colours: white, black/gold, black/copper, white/gold

Light source: 1x mains voltage LED module (C150) or COB LED (C180)

### Lederam C1

Ceiling lamp  
 Materials: aluminium disc, metal rod and base  
 Colours: white, black, gold, copper  
 Light source: 1x mains voltage LED module

### Lederam C2

Ceiling lamp  
 Materials: aluminium discs, metal rods and base  
 Colours: gold, copper, white, black  
 Light source: 2x mains voltage LED module

## Lederam W

Wall lamp

Materials: aluminium discs, metal base

Colours: white/gold, white/copper, black/gold,  
black/copper, gold, copper

Light source: 1x mains voltage LED module

Ø 17/25 cm

9 cm

## Lederam WF

Wall lamp  
 Materials: aluminium disc, metal base  
 Colours: black, white, gold, copper  
 Light source: 1x mains voltage LED module

Ø 17/25 cm

16/24 cm

## Lederam WB1

Wall lamp  
 Materials: aluminium disc, metal rod and base  
 Colours: gold, copper, black, white  
 Light source: 1x mains voltage LED module

25 cm

21 cm

## Lederam W1

Wall lamp

Materials: aluminium disc, metal base

Colours: gold, copper, black, white

Light source: 1x mains voltage LED module

Ø 17/25 cm

8/24 cm

Lederam CWM  
wall or ceiling lamp (custom product available on request - basic module 8 discs)

### Lederam W2

Wall lamp  
Materials: aluminium discs, metal rods and base  
Colours: black, white, gold, copper  
(in the pic: custom finish available on request)  
Light source: 2x mains voltage LED module

## Lederam T1

Table lamp

Materials: aluminium disc, metal rod and base

Colours: white, black, gold, copper

Light source: 1x mains voltage LED module

41 cm

## Lederam F0

Standing lamp  
Materials: aluminium disc, metal rod and base  
Colours: brass, black, gold, copper, white  
Light source: 1x mains voltage COB LED

## Lederam F1

Standing lamp  
Materials: aluminium disc, metal rod and base  
Colours: black, white, gold, copper  
Light source: 1x mains voltage LED module

## Lederam F2

Standing lamp

Materials: aluminium discs, metal rods and base

Colours: white, black, gold, copper

Light source: 2x mains voltage LED module

198 cm

## Lederam F3

Standing lamp

Materials: aluminium discs, metal rod and base

Colours: gold, copper, black, white

Light source: 3x mains voltage LED module

198 cm

Sorry Giotto

## Sorry Giotto 9 / 12

Pendant lamp with floor base and connection  
Materials and colours: blue hand-painted  
copper ring, black iron anvil  
Light source: 12x interch. LED (Ø 90 cm) /  
15x interch. LED (Ø 120 cm)

## Sorry Giotto 1

Table lamp  
Materials and colours: waxed rough  
iron base, blue hand-painted copper ring  
Light source: 4x interchangeable LED

## Sorry Giotto 3

Standing lamp

Materials and colours: black painted base and structure, blue hand-painted copper rings  
Light source: 16x interchangeable LED

Wall lamp  
Materials: metal base and structure, copper rod  
Colours: satin gold, nickel  
Light source: 6x interchangeable LED

84 cm

## Light Stick T

Table lamp  
Materials: metal base, copper rod  
Colours: nickel, satin gold  
Light source: 6x interch. LED

85 cm

## Light Stick F

Standing lamp  
Materials: metal base, copper rod  
Colours: black, nickel, satin gold  
Light source: 10x interch. LED

183 cm

Wa Wa

## Wa Wa T

Table lamp  
Materials: metal base and structure,  
copper sticks, removable glass lenses  
Colours: nickel  
Light source: 3x interchangeable LED

## Wa Wa F

Standing lamp

Materials: metal base and structure, copper sticks, removable glass lenses

Colours: brass base/structure/flex (copper sticks, nickel details) nickel  
base/structure/flex (nickel sticks and details)

Light source: 5x interchangeable LED

190 cm

## Wa Wa W

Wall lamp

Materials: metal base and structure,  
copper sticks, removable glass lenses

Colours: nickel

Light source: 3x interchangeable LED

## Miss Stick

Table lamp

Materials: metal base and flex,  
copper stick, removable glass lens

Colours: nickel

Light source: 1x interchangeable LED

## Uau T

Table lamp  
Materials: metal base, steel structure,  
copper stick, removable glass lens  
Colours: nickel  
Light source: 1x interchangeable LED

## Uau F

Standing lamp  
Materials: metal base, steel structure,  
copper stick, removable glass lens  
Colours: nickel  
Light source: 1x interchangeable LED

Atman

## Atman

## Other Smiths

Catellani che crea le lampade nel suo atelier e Smith che scalpita in scuderia. E' così dal 1989, quando Enzo Catellani si scelse un socio inesistente dandogli il nome del suo purosangue inglese. Dopo trent'anni Catellani pensa che gli sarebbe sempre piaciuto un confronto con un vero Smith. Difficile però trovare un'intesa con una personalità così forte che ha caratterizzato tutta la produzione della Catellani & Smith. Ecco quindi che si aprono le porte della mente e dell'azienda a nuovi Smith. Figure che possano immaginare nuovi prodotti in sintonia con il pensiero forte del fondatore. Giovani e non più, purché illuminati e illuminanti.

Catellani creates the lamps inside his atelier, while Smith paws the ground of his stable. It has been this way since 1989 when Enzo Catellani chose a non-existent partner, naming him after his English thoroughbred. Thirty years later, Catellani felt he would always enjoy an encounter with a real Smith. Developing an understanding with a personality so strong that it has characterised the entire production of Catellani & Smith was a difficult feat, however. Thus, the doors to the mind and the company have opened up to new Smiths. People that design new products in tune with the founder's clear vision. Young and no longer young, as long as they are enlightened and enlightening.

Catellani qui crée les lampes dans son atelier et Smith qui piaffe dans l'écurie. C'est ainsi depuis 1989, quand Enzo Catellani se choisit un associé inexistant en lui donnant le nom de son pur-sang anglais. Trente ans plus tard, Catellani pense qu'il aurait toujours aimé une confrontation avec un véritable Smith. Difficile toutefois de trouver une entente avec une personnalité aussi forte qui a caractérisé toute la production de Catellani & Smith. Voici donc que s'ouvrent les portes de l'esprit et de l'entreprise à de nouveaux Smith. Des figures qui peuvent imaginer de nouveaux produits en harmonie avec la forte opinion du fondateur. Jeunes et moins jeunes, pourvu qu'ils soient éclairés et éclairants.

Catellani kreiert Leuchten in seiner Werkstatt während Smith ungeduldig in seinem Stall stampft. Das ist so seit dem Jahr 1989, als Enzo Catellani sich einen imaginären Partner wählte und diesem den Namen seines englischen Vollblüters gab. Nach 30 Jahren denkt er, dass es ihm gefallen hätte, sich mit einem wirklichen Smith zu konfrontieren. Allerdings ist es schwierig, mit einer so starken Persönlichkeit, die die gesamte Produktion von Catellani & Smith gekennzeichnet hat, ein Einvernehmen zu finden. So öffnen sich also die Tore des Geistes und des Unternehmens, um neue Smiths hereinzulassen. Personen mit der Fähigkeit, sich neue Produkte auszudenken, die mit den starken Ideen des Gründers in Einklang stehen; Junge und weniger Junge, Voraussetzung ist, sie sind erleuchtet und erleuchtend.

Alchemie

### **Mettiamo in luce il concetto di tailoring**

Mettiamo sul tavolo la nostra esperienza. Una storia iniziata nel 1989 che nel tempo ci ha visto affiancare alla produzione di lampade, prima l'ideazione e la realizzazione di installazioni, poi la costruzione di pezzi "fuori serie" pensati per esigenze specifiche dei vari committenti. Per arrivare poi alla partnership nella realizzazione di importanti progetti di respiro internazionale. La nostra passione si fonde con la vostra. La nostra esperienza è per mettere in luce i vostri progetti.

### **Let's throw light on the tailoring concept**

Let's put our experience on the table. A story which began in 1989 which has seen lamp making accompanied first by installation design and creation and then by the construction of one-of-a-kind pieces designed for the specific requirements of a range of clients. And then partnership in the creation of important international scope projects. Our passion melds into yours. Our experience shines a spotlight on your projects.

### **Bei uns steht das Konzept des Tailoring im Rampenlicht**

Wir stellen Ihnen unsere gesamte Erfahrung zur Verfügung. Eine Geschichte, die im Jahr 1989 begann. Im Laufe der Zeit gesellten sich zur Leuchtenproduktion zunächst das Entwerfen und Realisieren von Installationen und dann die Herstellung von Einzelanfertigungen, speziell auf die persönlichen Ansprüche der verschiedenen Auftraggeber abgestimmt. Schließlich kam es zu Kooperationen für die Verwirklichung bedeutender Projekte internationaler Reichweite. Unsere Leidenschaft geht ganz in Ihrer Leidenschaft auf. Unsere Erfahrung dient dazu, Ihre Projekte ins richtige Licht zu rücken.

### **Soulignons le concept de tailoring**

Exposons notre expérience. Une histoire qui a commencé en 1989, et qui au fil du temps nous a vu ajouter à la production de lampes, tout d'abord la conception et la réalisation d'installations, puis la construction de pièces « hors série » conçues pour les exigences spécifiques de différents commettants. Pour arriver ensuite au partenariat dans la réalisation d'importants projets internationaux. Notre passion se conjugue avec la vôtre. Notre expérience sert à mettre en lumière vos projets.
