SURFRIDER Design Elements

Melding the salty, yet cozy oasis of the California coastline with a modern surf culture, Surfrider is defined by the use of natural materials including rattan, jute rope, stone, gypsum, bamboo and driftwood motifs. Designed to create relaxing spaces to escape from the pressures of modern life, it is featured in a light, natural Driftwood finish. Luxurious materials, shapes and textures combine to create a relaxed, yet sophisticated style that epitomize the lifestyle of a casual, beach-town community.

Two signature beds anchor the bedroom offering, including a panel bed with distinctive diamond patterns on the headboard and footboard and a rattan bed that is characterized by its cane and jute rope details that epitomize a relaxed, California casual lifestyle. Additional bedroom pieces include two nightstands, a bachelor's chest, a wardrobe, a bed bench and a variety of drawer chests.

Highlights of the dining room category include a rectangular dining table inspired by the rich heritage of the California surf culture, a pub table and a round rattan dining table that personifies Malibu's historic beach-town community. Additional pieces include a variety of dining chairs, counter-height chairs and bar stools with designs ranging from transitional styles with exposed wood arms and side chairs with upholstered seats to barrel back styles that add a unique design element to a dining or entertaining space. Storage and serving pieces include a three-door buffet and display cabinet featuring antique mirror detailing.

Highlights of the home office and occasional pieces including a writing desk with convenient open storage incorporated into the design of the base and an entertainment console with diamond motifs on the door fronts. Additional occasional pieces include an accent chair, an accent chest, a small media console, entertainment piers, a bar cabinet, a drum table, a martini table, several floor length mirrors, a cocktail table, a variety of end tables and several etagere styles.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Fabric

Upholstered items in Castella feature "Performance Fabrics" that offer superior stain and fade resistance, long-lasting durability and can be easily cleaned.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.
