Terzani's Precious Design Concept is luxury evolved. Each piece in this new lighting collection breaks the staid boundaries of traditional luxury, and incorporates stunningly modern design, cutting-edge technology, artisan craftsmanship and precious materials.

The result are sculptures of light whose illumination transforms spaces through dynamic lighting and shadow effects. They create a new visual language of what luxury is, one that reflects both today's aesthetics, architecture and design traditions yet also pushes towards the future.

Epoque, Cyclical *Light.*

Epoque is a light sculpture designed to study chiaroscuro and volumes. The result is a modern expression of these Renaissance-era techniques in a stunning chandelier. Composed of curved, organic lines, Epoque's frame is made of flexible and durable brass metal, suspended by nickel metal chains. Two bands of metal, a central elongated section and an external band of wide arcs, allows the light to envelop a room in reflections of soft light. Epoque has attracted attention from those in the design community with discerning tastes. Epoque is available in nickel, black nickel, gold and bronze finish. Design Stefano Papi & Saviz Yaghmai.

Atlantis, a Precious *Wave.*

Seemingly alive, Atlantis shimmering light creates a vibrant source of energy. Its mesmerizing, organic effect is created by hundreds of illuminated lengths of draped, nickel chain. Like water in the ocean, Atlantis chains appear liquid, cascading over its gloss nickel bands and falling down towards the abyss before turning back into itself. Atlantis is composed of almost three miles of chain, meticulously hand-crafted by master Italian artisans. Design Barlas Baylar.

Doodle, Freehand *Design.*

We no longer march in a straight line. Our lives are dynamic, intertwining collections of relationships, experiences and journeys. Reflecting the fluidity of our generation, designer Simone Micheli has created a new, contemporary light for Terzani, Doodle. Like us, each Doodle is unique, each pendant is handcrafted by artisans to resemble a randomised path. And, to give us control over the journey we want to take, each LED bulb can be placed anywhere on the light, not only reflecting the choices we make in life, but giving Doodle a special flexibility. Angel Falls, Cast down *Earth.*

For his first work for Terzani, Nigel Coates, well known for his unorthodox approach to design, has created an engaging, unique light. Kika, Get *Dressed Up.*

The glamour and allure of the Golden Age of Hollywood drove the inspiration for Terzani's newest pendant, Kika. Incorporating modern technology with new materials, designer Franziska Hinze created a contemporary fixture reflecting this exciting period in cinema. Balancing proportions was also part of the inspiration behind Kika's shape. The light is made of hundreds of photo-etched metal pendants, attached meticulously by hand to metal rings. The final result is similar to that of a fine jewel, floating in the air, and shining in every direction. To enhance the contrast of light, Terzani offers Kika in different color and size variations. Kika is a unique piece that adds vibrancy with a shimmering, suspended light. Design Franziska Hinze.

Calle, Perennial *Elegance.*

At Terzani, we spend countless days searching the globe for talented new designers, but sometimes they find us. Such is the case with the young designers Luca Martorano and Mattia Albicini who approached us with the design for Calle, a fantastic a new light we instantly fell in love with. It showcases our skill at crafting crystal to take the material to an exciting, modern place. Luca and Mattia worked with our craftsmen to create a slender inverted flute of crystal that, like the calla lily it mimics, can be grouped into stunning bouquets of light. Design Draw.

Anish, Playing *Spoons.*

A playful study of reflection, the idea for Anish was born when designer Dodo Arslan, while playing with his daughter, became fascinated by the almost infinite reflections spoons unleashed due to their concave and convex surfaces. Taking this idea to a larger scale, Dodo took inspiration from Italian flatware manufacturer and created a pendant composed of a range of spoons from the smallest teaspoon to serving spoons which magnifies the reflective quality of this shape. The result is an installation that creates a “galaxy” effect of seemingly endless light. Design Dodo Arslan.

Bond, brands of *Racing Light.*

Bond's bands of light expose a deceptively luxurious interior. Under the glass exterior, lays a core of gold leaf that creates a deep, complex radiance. The overall glow is intensified by incisions that emit focused, dramatic lines of light. Extremely versatile, Bond is available in three sizes; as either a pendant or a table/floor light; and with a black or white exterior. Whether alone or grouped together, Bond's light creates a dynamic atmosphere. Design Bruno Rainaldi.
