

Nature. Free art explorations. The Kundalini research continues. New interpretations of lighting with the mastery of technology and timeless materials. Floed, rarefied geometry, like coral structures. Nami Wall, the infinite reflections of a wave enclosed in luminous form. Viceversa, sculpture light fixtures that turn into vertical gardens. Three evocative projects, three different expressions of the Kundalini style.

EN. Light, according to Kundalini, is poetry and beauty, functionality and technique, simplicity and character. A universal language, a unique and versatile style, that draws on the past in an interpretation that is original and contemporary. From domestic to contract, each project is consistent with the company's identity. Key values: attention to quality, reliability and concreteness. Together with an out-of-the-box creativity that Kundalini shares with established designers as well as with emerging talents.

IT. La luce secondo Kundalini è poesia e bellezza, funzionalità e tecnica, semplicità e carattere. Un linguaggio universale, uno stile unico e versatile, che attinge al passato in una lettura originale e contemporanea. Dal domestico al contract, ogni progetto è coerente con l'identità dell'azienda. Valori chiave: attenzione alla qualità, affidabilità e concretezza. Insieme a una creatività fuori dagli schemi che Kundalini condivide con designer affermati e talenti emergenti.

D. Für Kundalini ist Licht Poesie und Schönheit, Funktionalität und Technik, Schlichtheit und Charakter. Eine universelle Sprache, ein einzigartiger und vielseitiger Stil, der sich in einer originellen und zeitgenössischen Interpretation auf die Vergangenheit stützt. Vom Wohnbereich bis hin zum Contract-Bereich steht jedes Projekt im Einklang mit der Identität des Unternehmens. Schlüsselwerte: besonderes Augenmerk auf die Qualität, Zuverlässigkeit und Konkretheit. Gemeinsam mit einer unkonventionellen Kreativität, die Kundalini mit etablierten Designern und aufstrebenden Talenten teilt.

FR. La lumière, selon Kundalini est poésie et beauté, fonctionnalité et technique, simplicité et caractère. Un langage universel, un style unique et polyvalent, qui puise dans le passé dans une lecture originale et contemporaine. Du résidentiel au contract, chaque projet est cohérent avec l'identité de l'entreprise. Les valeurs-clés : attention à la qualité, fiabilité et caractère concret. Avec une créativité hors des sentiers battus que Kundalini partage avec des designers confirmés et des talents émergents.

ES. La luz según Kundalini es poesía y belleza, funcionalidad y técnica, simplicidad y carácter. Un lenguaje universal, un estilo único y versátil, que recurre al pasado en una lectura original y contemporánea. Desde el doméstico al contract, cada proyecto es coherente con la identidad de la empresa. Valores clave: atención a la calidad, confiabilidad y concreción. Junto a una creatividad fuera de los esquemas que Kundalini comparte con diseñadores establecidos y talentos emergentes.

STORAGEMILANO

Storagemilano is an architecture and design firm founded in Milan in 2002 by Barbara Ghidoni, Marco Donati and Michele Pasini. The work of Storagemilano includes any aspect of the project: from the architectural shell to the furniture, with a particular accent on materials and shapes. The approach is based on the research of new aesthetics and spatial solutions, custom made for the client and interpreting its DNA in a personal way. Architecture, design, fashion, art and all that embodies form and volume are the main interest of storagemilano investigation: "Experimenting with unusual or different materials, with light and space, attention to detail and elegance are what surround and inspire us today".

NOÉ DUCHAUFOUR LAWRENCE

Noé Duchaufour Lawrence considers each project like an organic form which grows with its user. He does not limit himself in the projects that he develops, as ready to design objects for inspired lines for design manufacturers as to compose harmonious living areas as well as to define the image of a product or a showcase for a famous brand. He refers not only to the universal character of nature to impose forms which make sense but in addition states that the concept of total art is henceforth fundamental to contemporary creation.

ALBERTO SAGGIA & VALERIO SOMMELLA

Both graduated from the Politecnico of Milan in 2004, the first with a specialization in lighting design and more than 10 years of collaboration with the Metis Lighting studio, he founded the Anonima Luci studio with Stefania Kalogeropoulos in 2018, the scope of their activity ranges from lighting design to product design. The latter with an experience strongly linked to product design started in major design studios between Milan and Amsterdam. Since 2009 they collaborate specifically in the design of objects related to the lighting world, combining a technical vision with an aesthetic approach based on formal, material, technological and functional innovation.
