Elements

Located just north of Venice on the Adriatic Sea, the Italian province of Treviso has produced architectural and artistic treasures since Renaissance times. Traveling to the Province of Treviso is a trip through centuries of history surrounded by green countryside and gentle hills that have been carved by waterways bound for the Adriatic Sea. The union of this natural environment and its cultural heritage provides the inspiration for Treviso: a collection with a deep, rustic finish, exquisite carvings and meticulous handwork.

Treviso has the authentic feel of pieces that have lived a rich life as they aged beautifully through the centuries. The dark macchiato finish with rub-through shows the warmth of the wood and has a soft surface texture to give the appearance of an Old World antique that has aged naturally over time.

Capture the beauty and romance of the Italian Renaissance in classic furnishings updated for today with Treviso.

Treviso's primary finish is a rich, dark macchiato with rub-through that shows the warmth of the wood and has a soft surface texture to give the appearance of a varnish that has aged naturally over time. The accent finish has a rich tobacco coloration that is accented with golden undertones.

Custom-made ring pulls with ornate back plates have a hand-forged look in an aged pewter finish.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.
- A convenient cord clip avoids one of life's little headaches by holding phone charging cords securely in place so they don't fall behind the nightstand.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

DINING

Dine in an atmosphere of Old World elegance while enjoying the convenience of modern function including a sideboard and flip-top bar with well-designed storage and drink-preparation solutions. A grand 81-inch trestle table expands to approximately 116 3/4 inches wide to seat eight people when both 18-inch leaves are used. The 54-inch round dining table with a scrolled metal base has the feel of an artisan treasure. The two dining chairs include an upholstered camel-back chair with nailhead trim and a ladder back chair with wood seat.
