TYNECASTLE

dining room • bedroom • living room tables
home entertainment • home office

Named for the Tynecastle area of Northern England, the 50-piece Tynecastle Collection is inspired by the manor homes and equestrian life of the English countryside. Crafted from hardwood solids and figured Alder veneers, the collection combines classic Georgian architectural details with more rustic timber-frame elements and leather accents, creating a “manor home to tack room” Hunt Country flavor. Tynecastle receives its pedigree from the romantic images of manor homes brought to mind by the collection, balanced by its more casual elements and the warm, chestnut-colored finish that brings an inviting comfort to the bedroom, dining room, home entertainment, office and living room accent pieces.

Leather is used extensively in the collection—in the dramatic sleigh bed, two dining chairs and the leather-topped writing and executive desks. The use of figured Alder veneers provides a canvas of organic details, naturally present in the wood, to become part of the casual, welcoming chestnut finish.

Design Elements

Design

Architectural design elements on the bases of tables and the writing desk in the Tynecastle collection are inspired by the soft angled eaves and rafters in riding stables found in the English countryside.

Finish & Hardware

A warm, chestnut-colored finish over exquisite and figured Alder veneers create a canvas of comfort and classic appeal for the Tynecastle collection, accented by custom hardware in an aged copper finish.

Leather

Quality from start to finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.
