La fusione in terra dell'ottone è un'arte antica, che ancora oggi sa emozionare. La pressofusione crea oggetti di eccellenza e di altissima qualità sinonimi di lusso ed eleganza esclusivamente made in Italy. Fondiamo metallo trasformando l'idea di architetti e designer in oggetti esclusivi, dal prototipo allo stampo, al prodotto finito.

*Brass sand casting is an ancient art, which still continues to excite. Casting creates objects of excellence and of the highest quality, demonstrating luxury and elegance exclusively made in Italy. We base metal transformation on the ideas of exclusive product architects and designers, from the prototype, to the mould, to the finished product.*

Литье латуни «в землю» - это античное искусство, которое и сегодня способно вызывать эмоции. Литье создает предметы высокого качества с особым благородным шармом, присущим роскошным интерьерам, сделанным исключительно в Италии. Мы плавим металл, трансформируя идею архитектора и дизайнера в эксклюзивные предметы: от прототипа - к штампу - до законченного продукта

Мастера-ремесленники передают античное искусство муранского стекла из поколения в поколение, что гарантирует их изделиям высочайший уровень качества. Изготовление вручную и использование искусственных техник делают каждое их творение уникальным и неповторимым. Опыт Мастеров является для нас отправной точкой для создания актуальных предметов интерьера с ярким эмоциональным оттенком. Il cristallo è orgogliosamente solo italiano. Si ottiene fondendo in appositi forni a temperatura elevata, superiore a 1400°, utilizzando materie prime di qualità superiore si ottiene un prodotto con oltre il 24% di PbO, che conferisce una luminosità e trasparenza indiscutibili. La lavorazione del cristallo è eseguita artigianalmente; viene soffiato a bocca e le incisioni sono eseguite interamente a mano per cui ogni oggetto diviene "Objet d'Arte".

*Paralume Marina proudly uses only Italian crystal. It is made by melting in special high temperature furnaces, exceeding 1400°, using optimum quality raw materials a product is obtained with over 24% of PbO, which gives an undeniable brightness and clarity. The processing of crystal is carried out by hand; it is blown and the incisions are made entirely by hand so that every object becomes an "Objet d'art".*

Исключительно лучший итальянский хрусталь является нашей гордостью и отличительной чертой. Его получают посредством плавки в специальных печах при высокой температуре, превышающей 1400°, используя материалы лучшего качества. Это позволяет получить продукт с процентом свинца в составе в 24% и выше, что придает изделиям безупречную прозрачность и яркость. Обработка хрусталя проходит вручную: его выдувают, а затем гравировать полностью вручную, что гарантирует каждому изделию титул Произведения Искусства.
