ZAVA

OFFICINE ITALIANE DESIGN

Design, design e ancora design!

Parola d'ordine di ZAVA che da alcuni anni condivide la sua idea della luce con diversi designer, interpreti del mondo e della filosofia dell'azienda: dare volto ad un "saper fare" che da sempre coniuga artigianalità e design nella lavorazione del metallo sapientemente lavorato come vocazione più autentica del made in Italy.

Design, design and still more design!

This is ZAVA's password, who for several years has been sharing his ideas of light with different designers, interpreters of the world and ZAVA's philosophy: to give a face to a "know-how" that has always tried to combine craftsmanship and design in metalworking knowledgeably as the true vocation of the Made in Italy.

Zava: industrial suggestion.
