

ZONCA

ZONCA
la luce è passione

Over a century of light

Three generations and over half a century of forward-thinking design and craftsmanship. Zonca International designs light, translating forms and materials of the highest quality and flexibility into a contemporary language. Light is beauty and elegance, light is complexity and simplicity. Light is inspiration, but also the subject around which every Zonca International creation is born. A complete range of lighting solutions for the most prestigious locations, from major international hotels to luxury homes, from cutting-edge architecture to stylish guesthouses.

Zonca International takes care of every detail, from the concept to the installation, delivering unique and customised, tailor-made products which reflect the most intimate desires of our clients, the physical manifestation of our company's mission to deliver the highest quality, made in Italy. Attention to technical and aesthetic requirements, the selection of the finest materials, crafted entirely by hand, and our after-sales service network are what make Zonca International a truly reliable partner; working in collaboration with some of the most famous designers on the contemporary scene, our highly creative in-house team are on a constant search for innovative formal solutions for each and every creation.

Bubbles and relief in Venetian glass art, shades with exposed seams and joints, slight variations in colour all exude the beauty of imperfection, the most authentic guarantee of Zonca International's unique craftsmanship.

Oltre un secolo di luce

Tre generazioni e oltre mezzo secolo di design e artigianalità proiettati al futuro. Zonca International disegna la luce e traduce nel linguaggio contemporaneo una ricerca di forme e materiali votata da sempre alla qualità e alla flessibilità. Luce, infatti, è bellezza, eleganza, complessità e semplicità. Luce è ispirazione ma anche l'oggetto intorno a cui nasce ogni realizzazione firmata Zonca International. Una gamma completa di soluzioni per l'illuminazione dedicate alle strutture più prestigiose, dai grandi hotel internazionali alle dimore di lusso, dai più sorprendenti progetti architettonici ai relais de charme.

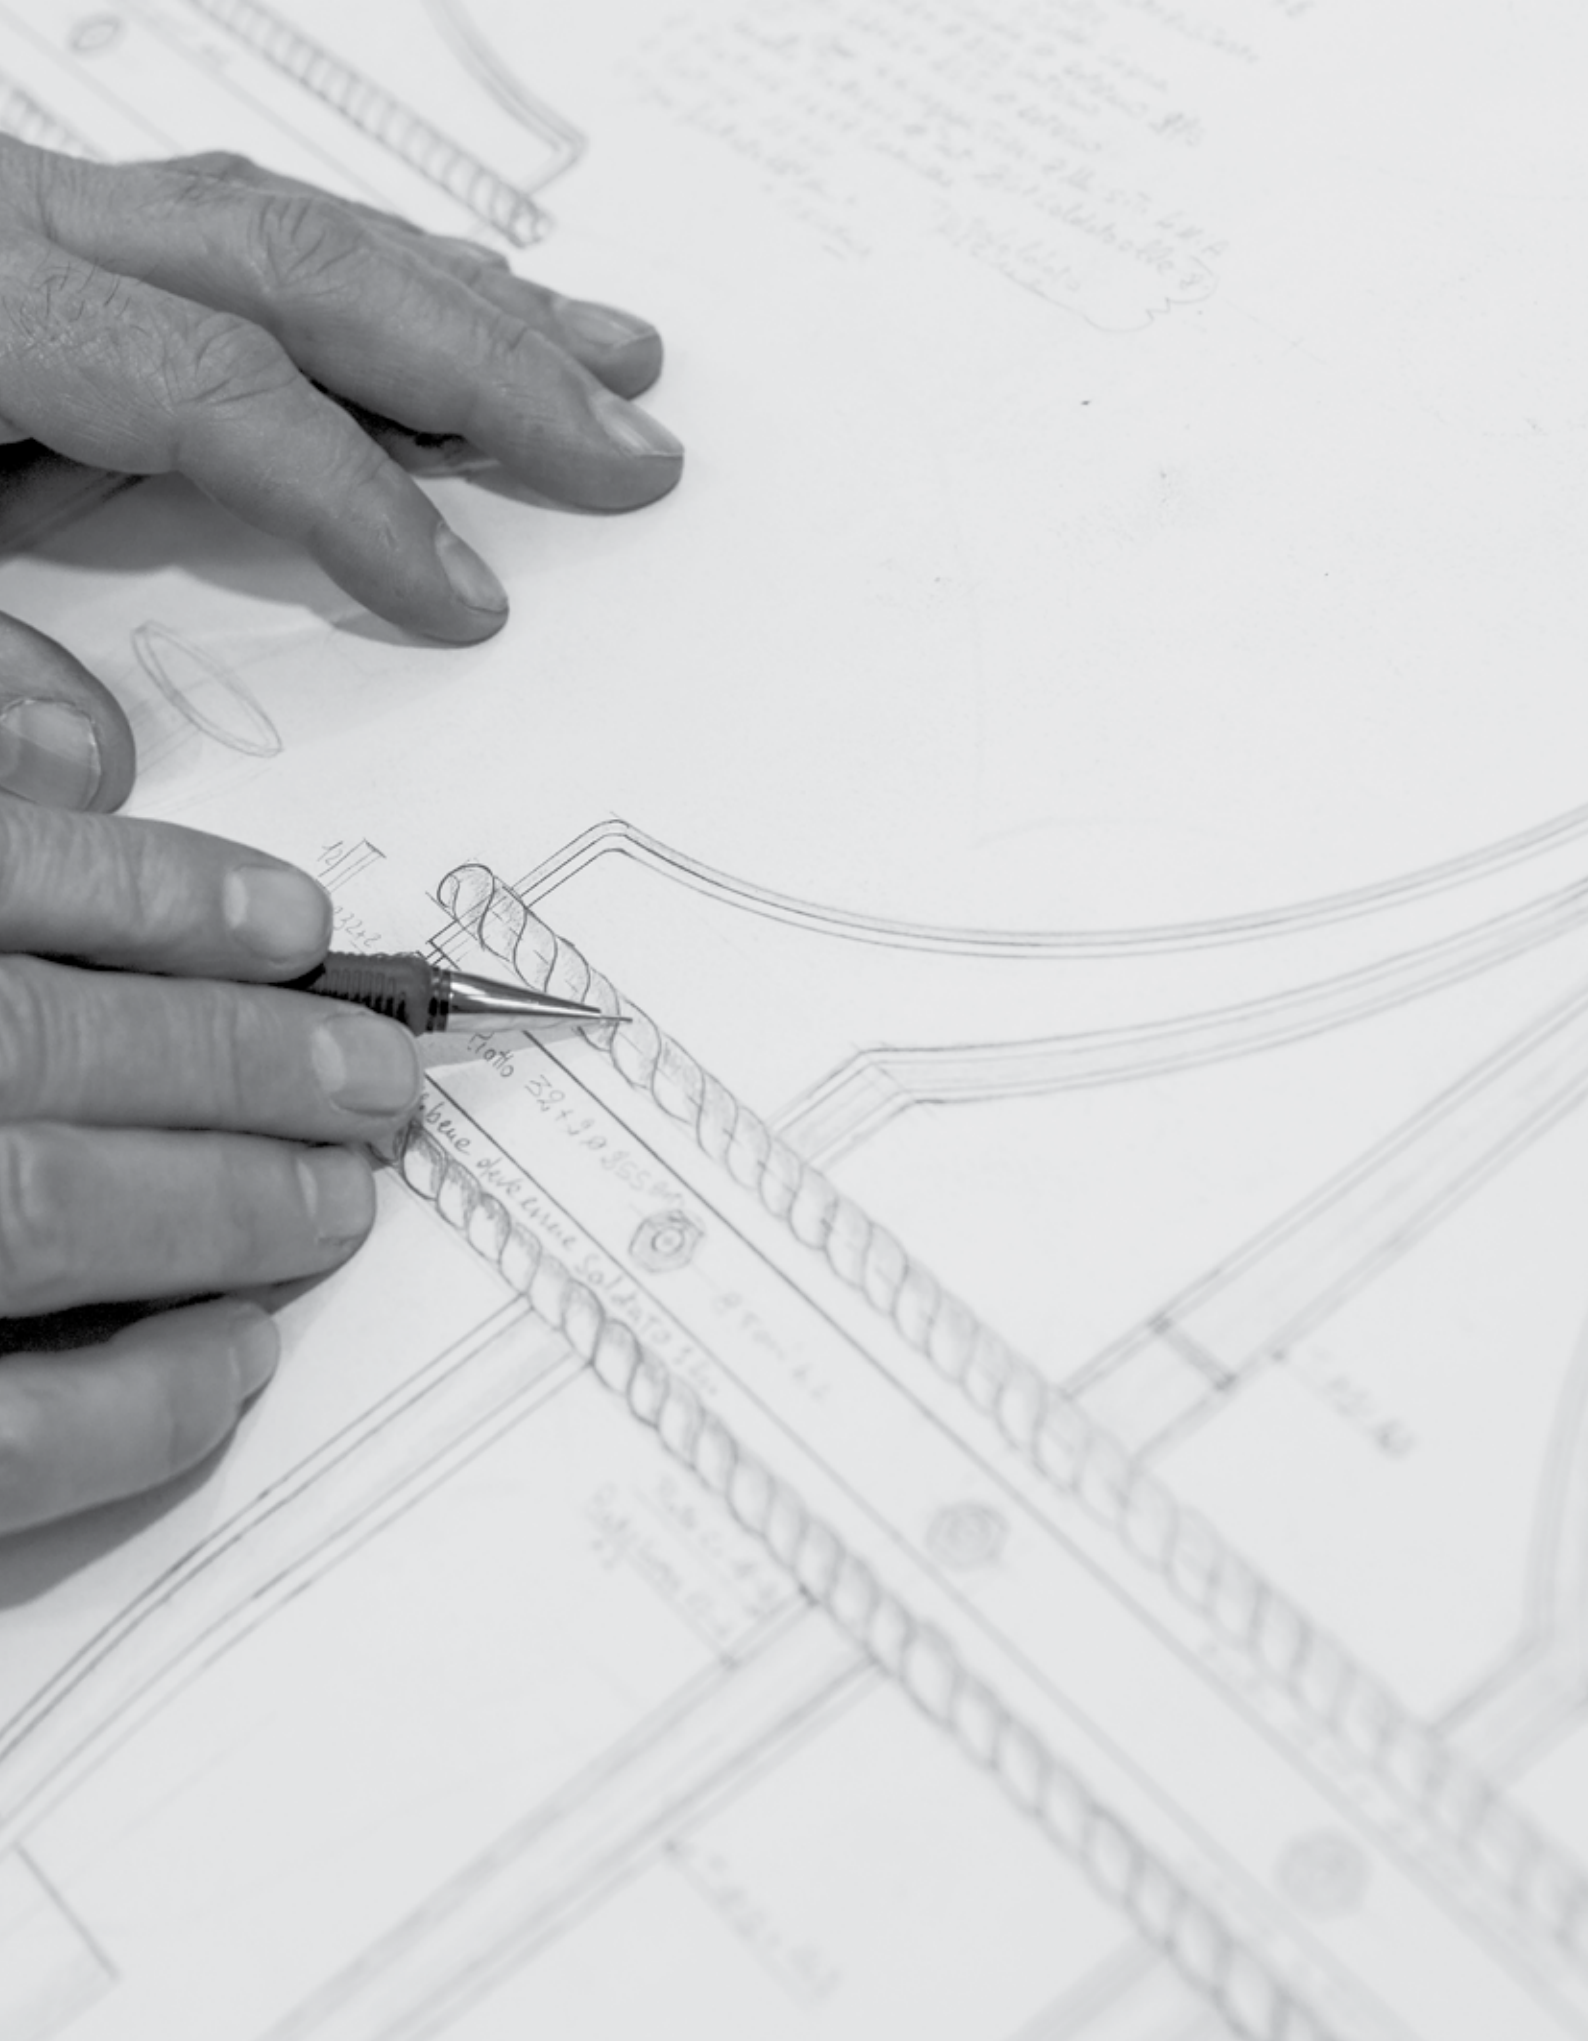

Zonca International segue ogni dettaglio, dal concept all'installazione, realizzando prodotti unici e personalizzati, "tailor-made", che riflettono i più intimi desideri dei propri clienti e danno forma ai valori di qualità e made in Italy della nostra azienda.

L'attenzione ai requisiti tecnici ed estetici, la selezione dei materiali, le lavorazioni esclusivamente artigianali, la rete di assistenza post vendita sono i punti forti che rendono Zonca International un partner affidabile; acceso dai lampi di creatività dei progettisti interni, affiancati da alcuni dei più celebri designer del panorama contemporaneo, in una continua ricerca di soluzioni formali innovative per disegnare ogni nostra creazione.

Bollicine e rilievi sui vetri artistici veneziani, cuciture e giunzioni a vista nei paralumi, leggere variazioni di colore sono la bellezza dell'imperfezione, la garanzia più autentica dell'unicità e dell'artigianalità di Zonca International.

IL CODICE COMPLETO DEL PRODOTTO SI DETERMINA DA:

- il primo campo alfanumerico o numerico identifica il modello scelto escluso di finiture, tale codice si legge sotto il disegno dell'articolo;
- dopo il primo campo si aggiungono i codici delle diverse finiture applicabili all'articolo.

Pertanto per ordinare un prodotto a catalogo si dovrà indicare il codice completo così come verrà presentato nel listino di riferimento.

Modifiche di prodotti non specificabili con i campi aggiuntivi di serie richiederanno un cambio di codice.

THE COMPLETE CODE OF THE PRODUCT IS DETERMINED BY:

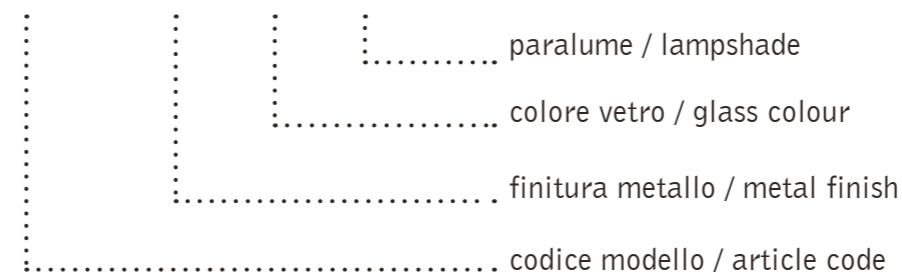

- the first alphanumerical or numerical field identifies the chosen model excluding finishes, this code is located under the article design;
- after the first field add the codes of different finishes applicable to the article.

Therefore, to order a product in the catalogue please indicate the complete code as well as will be presented in the reference list.

Changes of products not specified with the series of additional fields will require a change of code.
